## SYDNEY COFFEE CUPPING

Campos Coffee quickly attracted a loyal following when it opened its small store in the inner-city suburb of Newtown eight years ago. Now the company has launched Sydney's first Cupping Room at its flagship premises. The initiative is akin to wine-tasting, but for coffee lovers. Groups of six people are invited into the Cupping Room, which is darkened to heighten the senses. White cups containing at least five brews sourced from around the world are lined up on a stainless-steel bench and the tasting process begins, guided by Campos Coffee's baristas.
